

# Do you have Relapsing Remitting **MULTIPLE SCLEROSIS?**

Participants are needed for a research study investigating the add-on effect of Oral Steroids with an FDA approved MS medication.

To be eligible to participate you must:

- Have Relapsing Remitting MS
- Have had at least one relapse within the past year
- Be able to walk without any assistance

*If you qualify:*

- ❖ You will be asked to visit this center approximately every 4 months over a 3 year period
- ❖ Study participation will include health care monitoring as it relates to the research study

*For more information about participation in this research study,  
please call our Clinical Trials Division*
